experience

Full-stack developer

Prezi.com
2016/07-present

Mainly working on the collaborative features with Scala and Typescript. Also working with various technologies, on features spanning across the whole application.

Business consultant

i-Insight
2015/09-2016/06

Specializing in solutions that require advanced programming and engineering knowledge along with analytical and communication skills.

Software Engineer

Morgan Stanley
2015/02-2015/09

As an intern I was developing **Scala** back end logic, and corresponding Javascript front end components for financial software. Expertise: **Scala, Javascript, Three.js, Ext.js**

Summer Intern (C#)

Morgan Stanley
2014/07-2014/09

As a summer intern I was responsible for developing various parts of a complex trading application's UI in **WPF** and **C#**.

Java developer engineer

NSN
2012/08-2014/03

I was a part time regular Java developer. As part of a Scrum team I was responsible for developing server side **Java**, front end, and javascript. Thorough testing was part of the job. **Expertise: Java, Javascript, Testing, Agile**

Assistant lecturer

Software Laboratory 1. (C introduction), Software Laboratory 2. (C++ introduction). I put together and held a 2 semester course in Javascript

expertise

workable experience

Javascript (3+ years) [vanilla, Typescript]

Java (~2 years)

C#, Scala (1+ years)

R, Bash scripts, Python (<1 year)

familiar with

C, C++, Python, Oracle SQL

about me

about me

I really like to code. I enjoy competitions, educating and learning new things, hacking small experiments and prototypes (mostly web or game related) in my free time.
